Security & Control Panel

2GIG-GC2E-345

Your Favorite Panel Just Got Better

2GIG sets the standard for exceptional performance that delivers true peace of mind. With our GC2e, enjoy the proven performance and trustworthiness of the original 2GIG GC2 panel, along with new features that make life as a dealer even easier. With improvements like eSeries encrypted compatibility, an entirely new sleek design, larger capacitive touch screen, and our best-in-class 2-way voice, homeowners and dealers alike will appreciate the peace of mind they get from their 2GIG GC2e experience.

Key Selling Points:

- Enlarged, brighter 5" screen for better viewing and user experience
- eSeries encrypted sensors provide enhanced security
- Enhanced user interface with capacitive touch technology
- Elegant industrial design that blends in with today's lifestyle
- Expanded smart home ecosystem with Z-Wave Plus and S2 encryption
- Exceptional field-proven reliability and performance

Features You Love:

- Installer programming features and flow stay the same
- Backward compatible with all GC2 sensors for easy upgrades
- Supports LTE 4G and 3G radios
- Alarm.com and SecureNet compatible
