Bandwidth Usage

HD Live Streaming	IPCAM-WIC1	IPCAM-WIC2	IPCAM-WOC1
1 Camera	720p 1.024 Mbps	1080p 2.048 Mbps	1080p 2.048 Mbps
4 Cameras	720p 4.096 Mbps	1080p 8.192 Mbps	1080p 8.192 Mbps
8 Cameras	720p 8.192 Mbps	1080p 16.384 Mbps	1080p 16.384 Mbps

More Revenue Opportunities

— See, hear, speak and receive sound notifications via sound detection with indoor cameras
— Monitor gates, doors, patios, pools and more*
— Motion detection and video/snapshot capability featured on all cameras
— View 30-second video clips
— 7 or 30-day video storage
— Up to 8 HD cameras per location

*IPCAM-WOC1 only

Faster, Easier Installation

— Once powered and connected, the HD camera establishes a secure and authenticated connection
— Port 443 is typically available for outbound secure internet access
— No prior installation knowledge about encryption keys, network protocol, firewalls or other computer networking is required
— Easy and quick install with QR code

Security

— Unlike alternative solutions, Honeywell Total Connect® does not compromise security of the customer's router
— No need to open any ports on your existing router or create any firewall rules
— Alternative solutions require installer to open IP server ports
